NOTES TO THE FINANCIAL STATEMENTS

as at 30 June 2020

1. GENERAL

1.1 THE COMPANY

Aviva Investors (the "Fund") is a Variable Capital Investment Company (Société d'Investissement à Capital Variable) established in the Grand Duchy of Luxembourg under Part I of the law of 17 December 2010, as amended (UCITS V). The Fund was incorporated in Luxembourg on 16 January 1990 for an unlimited period. The Fund operates as an open ended investment Fund.

The Company is structured to provide both institutional and individual investors with a choice of investment portfolios, each offering different investment objectives designed to meet specific risk expectations and diversification requirements.

The fund has been registered under the UK temporary permissions regime with the UK Financial Conduct Authority to allow the Funds to continue being temporarily marketed in the UK after Brexit Day.

As at 30 June 2020, the Fund comprises 29 active Sub-Funds.

Distributions are disclosed in the caption "Dividend distributions" in the Combined Statement of Operations and Changes in Net Assets.

1.2 THE SHARE CLASSES

The Board may issue A, B, F, I, J, K, L, M, R, S, V and Z Share Classes in any currency, as accumulation or distribution share classes, and which may be hedged or unhedged.

1.2.1 CURRENCY

Share Classes may be available in various currencies (each a "Class Currency") other than the reference currency of the Sub-Fund. Where offered in a currency other than the reference currency of the relevant Sub-Fund, a Share Class is designated as such.

1.2.2 DIVIDEND POLICY

It is intended that all Share Classes with an "a", "q" or "m" in the designation will distribute on an annual (a), quarterly (q) or monthly (m) basis if determined by the Board.

Payment is made in the currency in which the relevant Share Class is denominated.

1.2.3 HEDGED SHARE CLASSES

In accordance with the provisions of the current prospectus, the Fund may offer Share Classes in a Sub-Fund in a currency other than the Sub-Fund reference currency or in relation to the currencies in which the underlying assets of the Sub-Fund are denominated. The respective Sub-Fund has the ability to hedge such Share Classes in relation to the Sub-Fund reference currency. Where hedging of this kind is undertaken the latter is designated as such by a reference to "hedged" or ("h"). A sub-fund can also choose to manage currency exposure with a reference to a Benchmark. Because such a benchmark is only used as a point of reference, a sub-fund's exposure to any given currency may be different than that of its benchmark. The Sub-Fund will engage for the exclusive account of such Share Classes, in forward foreign exchange contracts, currency futures, currency options or currency swaps, in order to preserve the value of the Share Class in its reference currency against its value in the Sub-Fund currency or against the currencies in which the underlying assets of the Sub-Funds are denominated.

Where undertaken, the effects of this hedging is reflected in the Net Asset Value and, therefore, in the performance of the currency Classes. As a result, currency hedging may impact the Net Asset Value of one Class as compared to the Net Asset Value of a Class denominated in another currency. Any profit or loss resulting directly from the forward foreign exchange contracts, currency futures, currency options or currency swaps used to create the hedge is borne by the relevant currency Class in relation to which they have been incurred.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis. Sub-funds that have been liquidated during the period or are intended to be liquidated after the period end are prepared on a non-going concern basis. The preparation of financial statements requires management to make estimates and assumptions that may affect the amounts reported in the financial statements and the accompanying notes. Actual results may differ from those estimates.

2.1 FOREIGN CURRENCIES

The financial statements of each Sub-Fund of the Fund are expressed in the currency of the Sub-Fund and its accounting records are maintained in that currency. Assets and liabilities in other currencies are translated into the currency of the Sub-Fund using the exchange rate in effect at the period end date. Income and expenses in other currencies are translated into the currency of the Sub-Fund at the exchange rate in effect on the date of the transaction.

The resulting exchange differences are recorded in the Combined Statement of Operations and Changes in Net Assets within the caption "Foreign currency translation difference".

The combined financial statements of the Fund represent the sum of the financial statements of each Sub-Fund. The combined financial statements are presented for information purposes only in EUR, each Sub-Fund using the exchange rates prevailing at the Balance Sheet date.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

as at 30 June 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.1 FOREIGN CURRENCIES (CONTINUED)

The exchange difference resulting from the translation of net assets at the beginning of the period using the period end rates is recognised in the Combined Statement of Operation and Changes in Net Assets within the caption "Foreign currency translation difference".

2.2 SWING PRICING

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact and protect the interests of shareholders, the NAV may be adjusted upward when there is strong demand to buy Sub-Fund Shares and downward when there is strong demand to redeem Sub-Fund Shares.

The adjustment may vary from Sub-Fund to Sub-Fund and will normally not exceed 2% of the original NAV per Share unless exceptional market conditions occur.

The thresholds where swing pricing is triggered are set by the Management Company, and may vary over time and from one Sub-Fund to another.

The swing pricing mechanism may be applied across all Sub-Funds and Share Classes.

The NAV per Share as disclosed in the statistical information is the published NAV per Share whereas the total net assets disclosed in the Combined Statement of Net Assets is the total net asset value excluding any period end swing adjustment.

As at the period end, swing pricing was applied on the NAV per Share of the Sub-Funds Aviva Investors – Emerging Markets Local Currency Bond Fund, Aviva Investors – Global High Yield Bond Fund, Aviva Investors – Global Investment Grade Corporate Bond Fund and Aviva Investors – Global Sovereign Bond Fund.

2.3 VALUATION OF ASSETS

The value of the assets of the Fund is determined as follows:

(1) The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be received in full, in which case the value thereof shall be arrived at after making such discount as the Board of Directors may consider appropriate in such case to reflect the true value thereof;

(2) The value of securities, Money Market Instruments and/or financial derivative instruments which are quoted or dealt in on any stock exchange is based on the last available price provided that where securities, Money Market Instruments and/or financial derivative instruments are quoted on any stock exchange operating on the basis of separate bid and offer prices mid-market valuations may, as the Board may decide, be applied;

(3) In the event that any of the securities held in the Fund's portfolio on the relevant dealing day are not quoted or dealt in on any stock exchange or regulated market or if, with respect to securities quoted or dealt in on any stock exchange or regulated market, the price as determined pursuant to sub-paragraphs (2) or (3) is not representative of the fair market value of the relevant securities, the value of such securities is determined based on the reasonably foreseeable sales price determined prudently and in good faith by or under the Board of Directors' supervision.

(4) Shares in open-ended UCIs and/or UCITS are valued on the basis of their last Net Asset Value, as reported by such undertakings.

(5) The financial derivative instruments which are not listed on any official stock exchange or traded on any other regulated market are valued in a reliable and verifiable manner on a daily basis and in accordance with market practice, as further detailed below.

(6) Futures

The Fund on behalf of a Sub-Fund may enter into financial futures contracts as part of its investment strategy. Upon entering into a futures contract, the Fund is required to deposit with a broker an amount ("initial margin") equal to a certain percentage of the purchase price indicated in the futures contract. Initial margin is included as part of "Cash at bank and at brokers" in the Combined Statement of Net Assets. Subsequent payments ("variation margin") are made or received by the Sub-Fund each day, depending on the daily fluctuations in the value of the underlying futures contracts. These subsequent payments are recorded for financial reporting purposes as unrealised result by the Sub-Fund. When entering into a closing transaction, the Sub-Fund will realise, for book purposes, a gain or loss equal to the difference between the values of the futures contract to sell and the futures contract to buy. Futures contracts are valued at the last sale price or, in the absence of a sale, the mean between the closing bid and asked quotation or if no bid or asked prices are available, at the last bid price. Certain risks may arise upon entering into futures contracts from the contingency of imperfect market conditions. Please refer to the Portfolio of Investments and Other Net Assets for the details of the contracts outstanding as at 30 June 2020. When a contract is closed, the Sub-Fund records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract within the caption "Net realised gain/(loss) on financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

2.3 VALUATION OF ASSETS (CONTINUED)

(7) Forward currency exchange contracts

All Sub-Funds in connection with the portfolio purchases and sales of securities denominated in a foreign currency or Share Class hedging, may enter into forward currency exchange contracts for the purposes of hedging foreign currency exchange risks. Contracts are recorded at market value based on the forward exchange rate of the underlying currency on the valuation day. Certain risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts. Please refer to the Portfolio of Investments and Other Net Assets for the details of the contracts outstanding as at 30 June 2020. When a contract is closed, the realised gain/(loss) is recorded within the caption "Net realised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded within the caption "Net unrealised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Net Assets.

(8) Swaps contracts

A swap is an agreement that obliges two parties to exchange a series of cashflows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other at the brokers' level, with the difference being paid by one party to the other, if authorised by the dedicated International Swaps and Derivatives Associations agreements ("ISDA agreements"). Risks may arise as a result of the failure of counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore, the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities or indices.

Financing leg proceeds received or paid on swap contracts are, respectively, included as part of "Income – Interest on swap contracts" and "Expenses – Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses on the remaining leg are recorded within the caption "Net unrealised gain/(loss) on swap contracts" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets within the caption "Net changes in unrealised appreciation/(depreciation) on swap contracts". When a contract is closed, the realised gains or losses are recorded within the caption "Net realised gain/(loss) on swap contracts" in the Combined Statement of Operations and Changes in Net Assets.

The cashflows received and paid by the Sub-Fund in connection with swap contracts are converted to present value on the valuation date corresponding to the maturity of these cashflows. The value of the swap contracts is the difference between these two present value conversions. Please refer to the Portfolio of Investments and Other Net Assets for the details of the contracts outstanding as at 30 June 2020.

(9) Options

Premiums paid by the Sub-Funds for purchased options are included in the Combined Statement of Net Assets as option purchased. If the option is allowed to expire, the Sub-Fund will lose the entire premium it paid and record a realised loss for the premium amount. Premiums paid for purchased options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss to be booked.

Premiums received by the Sub-Funds for written options are included in the Combined Statement of Net Assets as option written. The Sub-Fund records a realised gain or loss on a written option based on whether the cost of the closing transaction exceeds the premium received.

The realised gain/losses and change in unrealised appreciation/(depreciation) on options are disclosed in the Combined Statement of Operations and Changes in Net Assets, respectively within the captions "Net realised gain/(loss) on options contracts" and "Net changes in unrealised appreciation/(depreciation) on options contracts".

Options that are not traded on a regulated market or any other regulated market are valued at their liquidation value determined in accordance with the rules set in good faith by the Board of Directors according to standard criteria for each type of contract. Please refer to the Portfolio of Investments and Other Net Assets for the details of the options contracts outstanding and margin deposits as at 30 June 2020. The company can also use options on swaps (swaptions). The market value of these swaptions is shown in the caption "Options purchased contracts at fair value" or "Option written contracts at fair values". For swaptions, the gross premiums to be paid on purchased options (to be received on written options) are included in the caption "Payable on investments purchased" ("Receivable on investments sold") in the Combined Statement of Net Assets.

(10) Fair value

Fair Market valuation: Aviva Investors Luxembourg has implemented a fair valuation process for Asia Pacific equities in order to protect the funds against market timing practices. In the case a market in which the Funds invest is closed at the time the funds' assets are valued, the latest available price may not reflect the fair value of the fund portfolio. In such circumstances, some investors could exploit this gap, which is considered as market timing and deemed "not acceptable" as per CSSF circular 04/146. To limit this, the fund should adjust the local closing price of the securities held to reflect the information available at valuation point. The adjustment amount is so included in the market value of securities in scope. At the time of this report, Sub-Funds included in this Fair market valuation process are Asian Equity Income Fund, Emerging Markets Equity Income Fund, Emerging Markets Equity Small Cap Fund and Global Emerging Markets Index Fund.

2.3 VALUATION OF ASSETS (CONTINUED)

(10) Fair value (continued)

Fair valuation of individual positions: In face of difficult market conditions (e.g. no liquidity, lack of information on trades, etc.), prices obtained for certain investments source may not be representative of fair value. As a result, the Board of Directors of the Fund has implemented fair value techniques to estimate the fair value of these investment. Because of the inherent uncertainties in the fair valuation process, these estimated values may significantly differ from the values that may be ultimately recovered. At the time of this report, Sub-Funds included in this Fair market valuation process are listed below:

Sub-Fund Name	Currency	Number of securities	Market value of fair valued securities	% Net Assets
Aviva Investors - European Corporate Bond Fund	EUR	1	-	-
Aviva Investors - Global Convertibles Absolute Return Fund	USD	3	-	-
Aviva Investors - Global Convertibles Fund	USD	3	-	-
Aviva Investors - Global Emerging Markets Index Fund	USD	1	-	-

2.4 TREATMENT OF INTEREST INCOME AND DIVIDENDS

Interest income is accrued on a daily basis. Dividend income is recorded on the ex-dividend date. Both are recorded net of withholding tax.

3. COLLATERAL

Several Sub-Funds received collateral to cover the unrealised results on OTC derivative instruments. Collateral is calculated and settled on a daily basis per counterparty. Cash collaterals cannot be sold, re-invested or pledged.

4. RELATED PARTIES

4.1 INVESTMENT MANAGERS AND MANAGEMENT COMPANY FEES

4.1.1 INVESTMENT MANAGEMENT FEES

The Management Company receives from the Fund a management fee payable in arrears at the end of each month. Investment Managers are paid out of this fee by the Management Company. Please refer to the prospectus for details of the applicable rates per share class.

4.1.2 PERFORMANCE FEES

For the Sub-Fund Aviva Investors - Global Convertibles Absolute Return Fund and in accordance with the Fund's prospectus, Investment managers may receive some performance fees in addition to their investment management fees. The performance fee is charged when the Sub-Fund exceeded its previous high water mark (the NAV on the day the most recent performance fee was paid or, if no performance fee has ever been paid, then the NAV at inception).

The performance fee shown in the table applies only to the portion of the Sub-Fund's performance that is above the performance of its benchmark. For Sub-Fund that has an annual performance fee, the performance period begins 1 January (or any later date at which it first becomes effective) and ends 31 December (or any earlier date on which it ceases to become effective). The Sub-Fund has a quarterly performance fee and each performance period begins on the first business day of the quarter (or any later date at which it first becomes effective) and ends on the last business day of the quarter (or any earlier date on which it ceases to become effective).

A Sub-Fund's performance fee accrues each Business Day.

The performance fee is crystallised at the end of each performance period and any amount due for the period is paid to the Management Company. Neither the Management Company nor any Investment Manager is permitted to pay money into the Sub-Fund or to any Shareholder for any underperformance.

For Shares redeemed during a financial year, the performance fee is calculated as of the date the transaction is processed, and any performance fee due is crystallised at the time of redemption.

Any applicable performance fee is calculated for each Class of the Sub-Fund (except Z Shares, which pay no performance fee). Because different Share Classes may have different NAVs, the actual performance fees paid may vary by Share Class. For Distribution Shares, any distributions paid out are counted as part of performance for purposes of performance fee calculation.

In line with the requirements of the Undertakings for Collective Investments in Transferable Securities Directive V ("UCITS V"), Aviva Investors Luxembourg ("AI LUX") is subject to a remuneration policy which is consistent with the principles outlined in the European Securities and Markets Authority guidelines on sound remuneration policies under the UCITS directive.

Aviva Investors' remuneration framework is based on a total reward approach and is designed to reflect the success or failure against a range of personal and company performance objectives. There are four components of pay: base salary; annual bonus (including deferred bonus); long term incentive plan; and benefits. Aviva believes in rewarding strong performance and the achievement of our business and individual goals; however, the manner in which these goals are achieved is also an important factor in determining outcomes.

The extent to which each aspect of performance affects the overall payment level depends on the role and responsibilities of the individual. Performance is measured against personal objectives, including Risk and Control objectives, as well as Aviva Investors' and the business unit performance against agreed targets. a combination of individual, business unit, Aviva Investors and Group performance over an appropriate period.

- The financial considerations include the following comparisons -:
 - Actual results vs. prior period results
 - Actual results vs. agreed plans
 - Actual results relative to competitors
 - Actual results vs., and progress towards, our long-term target ambition.
- The non-financial considerations include risk, conduct, culture, customer and employee engagement metrics, with Aviva values clearly underpinning all our decisions. In certain roles, adherence to Responsible Investment and ESG principles will also be a consideration.
- The Performance assessment does not encourage risk taking outside the Aviva Investors stated risk appetite and includes mechanisms by which performance against risk and conduct related measures has a significant impact on the availability and size of business and individual variable awards.
